

SECURITY SERVICES

Protecting your property up close.

Melcour Security Solutions: Toronto's security experts

Since 2002, Melcour Security Solutions has been a leader in business security system design and installation in the Greater Toronto Area (GTA), often called in for jobs that require a superior level of security. Our staff of highly trained experts has combined over 80 years of experience in the business security field. Armed with the knowledge and resources to build end-to-end integrated security systems, we are able to safeguard any size facility (small, mid-size or enterprise level) via best-in-class security solutions:

- Access Control Systems
- CCTV Surveillance Systems
- Security Networks
- Intrusion Alarm Systems
- Voice Communications Systems
- Small Business PBX Systems

Melcour Security Services

Our full-service security system offering includes the following:

Installation – we personally and professionally install all aspects of your security in one easy-to-manage integrated system.

Maintenance Programs – we offer extended warranties on all Melcour products and services. We can troubleshoot and repair damaged equipment, replace old or obsolete hardware, and we can quickly restore any disrupted security services.

Monitoring – Melcour can monitor all aspects of your system remotely 24/7/365.

Security System Design – We offer customized security systems to fit your needs.

Managed Services – your property can be managed remotely – by either you or our team of qualified and competent security experts.

Specializing in commercial, industrial and institutional security systems

We specialize in security systems for the private and public sectors, education, government, property management and major industry, all at an affordable price. Some of our esteemed clientele whom we are proud to support include:

- Branksome Hall
- Bentall Kennedy
- Cadillac Fairview
- GWL Realty Advisors
- Manulife
- Ministry of the Attorney General
- Pickering College
- Toronto French School
